

## Autumn Leaves

Autumn leaves changing into colourful leaves flying like a butterfly flying up in the sky. Leaves falling down fast like me running in cross country. Leaves crinkling, crunching, and sparkling on the ground makes me want to jump into the pile of leaves. Leaves shining like a rainbow making me just want to take them home with me. Leaves falling everywhere like snow. When they fall I catch them as they fall down and try to put them somewhere special for summer. Leaves falling down like a red, orange, gold and yellow rainbow. When leaves on trees fall it looks like little airplanes slowly falling in the rough breeze. Leaves on the ground look like a nice place to rest.
